Technical Skills

Languages: TypeScript, JavaScript, Python, SQL, C#, C/C++

Frameworks: Next.js, React, React Native, Node.js, Supabase, Tauri, Tailwind CSS, LangGraph, LangChain

AI / Data: RAG, multi-agent systems, LLM orchestration, Qdrant, Ollama, RAGAS, prompt engineering

Tools: Git, Figma, Postman, Vercel, Google Maps API

Education

University of the Philippines – Cebu

Expected July 2026

Bachelor of Science in Computer Science

Cebu City, PH

- **Relevant Coursework:** Data Structures, Algorithms, Software Engineering, Databases, AI, ML, NLP, Image Processing

Undergraduate Thesis

Multi-Agent AI System for Fragmented Disaster Data (GeoAgent adaptation)

- Built an offline **5-agent RAG system** (routing, SQL, semantic, viz, synthesis) over **23,687 chunks** + geospatial DB, served via a **4-bit quantized Qwen2.5-7B** on local hardware.
- Benchmarked against a single-agent RAG baseline on 40 queries using **RAGAS**; the multi-agent system answered every query while the baseline refused most, with substantially higher answer relevancy and context precision.

Experience

Alliance Software Inc.

June 2025 – July 2025

Software Engineering Intern

Cebu City, PH

- Built **SkillStacker**, a **C#** admin web app with **CRUD** for users and training modules.
- Developed and delivered within **Alliance Software's** enterprise **SDLC** as part of their Summer Bridge program.

Sir Chan's TLE Tambayan

August 2025 – April 2026

Full-Stack Developer (Contract)

Cebu City, PH

- Architected a specialized **LMS** with **Next.js** and **TypeScript**, implementing **Supabase** SSR for server-side authentication and cookie-based session persistence.
- Built a **Role-Based Access Control (RBAC)** system separating teacher and student dashboards into distinct permission tiers.
- Integrated **Supabase Storage** and **real-time database** sync, enabling teachers to publish curriculum updates that students see instantly.
- Shipped a responsive UI with **Tailwind CSS** and **shadcn/ui**, optimized for SEO via SSR.

Apexel Development

April 2025 – July 2025

Mobile Developer (Contract)

Remote

- Built a cross-platform mobile **MVP** for an international client using **React Native** and **Supabase**, delivered in time for investor demos.
- Architected real-time data flows and secure authentication, designing the schema to support both online sync and offline-first usage.
- Prototyped in **Figma**, translating business requirements into production-ready components.

Project

SyntaxHub | *Tauri, Python, Rust, React*

- Engineered a lightweight **IDE** with a custom programming language and a **Python-based compiler** supporting variables, control flow, and functions.
- Implemented file system operations, real-time code execution, and a syntax-aware text editor.

Awards & Achievements

University Scholar (President's List) – multiple semesters, University of the Philippines Cebu

Certifications: The Web Developer Bootcamp (2024) – Udemy

Spoken Languages: English, Filipino, Cebuano
